June 23, 2016

To Whom It May Concern,

On behalf of the Gracie Academy located at 2778 N. Milwaukee Ave, Chicago, IL 60647, I am happy to share my experience with Airbiotics cleaning products. As an academy owner, health and safety is my top priority. Transitioning my academies to use safe and non-toxic chemical cleaners have always been a challenge because there are not many options to choose from. As many know, healthy lifestyles are a big part of martial arts and specifically true for Jiu-Jitsu. When we were offered to see the high performance/non-toxic products from Airbiotics we welcomed the meeting and eagerly awaited to see the products.

When operating a gym most owners have many concerns such as odors, the spread of bacteria, restroom cleanliness and indoor air quality. In Feb of 2016 we tested the levels of bacteria on our mats, bathrooms and common areas using our standard chemical cleaners against Airbiotics' All Purpose Cleaner and Mist Spray. Using an ATP Meter, the tests proved that using Airbiotics not only cleaned better initially, but kept surfaces cleaner for over a 24-hour period. Without having to change our normal cleaning routine, the Airbiotics products reduced odors, removed dirt and grime for hard to clean areas in our bathrooms and improved the air quality in my entire gym which is 9140 square feet.

Overall, our facilities are microscopically clean and safe for both students and employees. In regards to value and cost savings, switching to Airbiotics has saved us hundreds of dollars annually on cleaning products and reduced the number of cleaning products to 2 items.

It is not often that I publicly recommend products but in the case, I am proud to. I believe that Airbiotics will improve the overall cleanliness and safety of any public area especially for gyms, yoga studios, cross fit centers and all other businesses where people come for health and fitness activities. In fact, we have named Airbiotics the official Gracie Academy cleaner and refer these products to all gym owners and students for both home and business use.

Sincerely,

Carlson Gracie Jr.
